

Decades in the making.

At Summit, we believe thoughtfully-made furniture should be for everyone. We design and build beautiful, affordable furniture that brings everyday spaces to life – from welcoming workplaces to inspiring campuses. Blending tradition with innovation, our pieces are made to stand the test of time.

Where heritage meets innovation

Founded by Peter Ford and Tom Simpson in 1977, Summit's reputation for quality design and service is decades in the making. From the tubular-framed and swivel chairs of the 1970s to the modular sofas and meeting booths for today, we've continuously innovated to make new collections that deliver on style, function, ergonomics and price.

Expertly crafted furniture since 1977

We're seamstresses, welders, woodworkers, upholsterers and more – crafting furniture since 1977. Founded in St Albans, we've spent 45 years becoming experts in our field, passing our skills on to Summit's next generation of furniture makers. A lot has changed since our bell-bottom days, but our commitment to quality design remains the same.
